Objectives

Python and Django developer applying my skills. My high motivation and drive to grow and learn programming languages allows me to consistently fulfill project requirements and look for ways to go above and beyond.

Languages and Frameworks

- Python
- Django
- JavaScript
- MERN
- HTML
- CSS
- SQL

Programs and Software

- Linux
- IntelliJ
- GitHub

Creative Applications

- Photoshop
- Illustrator
- InDesign
- Premiere Pro

Projects

Mock Wikipedia Web Application— Python & Django

March 2019

Individual project to create a web application that allows users to search and create articles.

Utilized Python to handle backend routes and requests.

Implemented Django's templating language along with CSS to create a legible, familiar and easy to navigate front end.

Recipe Sharing Web Application — Python & Django

March 2019

Individual project to create a web application that allows users to share and create recipes.

Utilized Python to handle backend routes and requests.

Implemented Django's templating language along with CSS and bootstrap to create a legible, minimal and easy to navigate front end.

Mock Twitter Web Application — M.E.R.N

April 2019

Individual project to create a web application that allows users to view and create 'tweets'.

Utilized Express to handle backend routes and requests.

Implemented React to create a responsive and efficient frontend.

Education

Microsoft JavaScript Certification

May 2019

Certification verify fundamental JavaScript skills and understanding

CodeCrew CodeSchool, Memphis TN

Jan 2019 - June 2019

Intensive coding boot camp aimed at producing confident and competent full stack developers

University of Tennessee, Knoxville TN

Aug 2016 - Sep 2018

Earned 85 credit hours towards an architecture degree with a 3.56 gpa
