Personal Statement

I am motivated and eager to learn new skills. I am currently participating in a six month coding boot camp from Jan-June2019 in order to become a full-stack developer in the Memphis area. I have a passion for coding and a love for design.

Education

Bolton High School	2016
University of Tennessee, Knoxville	2016-2018
CodeCrew Coding Boot Camp	2019

Work Experience

University of Tennessee Fabrications Laboratory Student Technician	Feb-Apr 2018

In this position I operated 3D fabrication machines to help students complete design projects.

Skills

Design
Proficiency in Premiere Pro, Photoshop, Illustrator, InDesign, rhino, and grasshopper

Leadership
I have held multiple student leadership positions during my time at the University of Tennessee including; Student Senator, American Institute of Architecture Students Vice President, Honors and Scholars Ambassador and more. These positions have allowed me to develop as a leader, effective communicator, and dedicated organizer.

Personal
I pride myself on an approachable demeanor and driven spirit.

Portfolio

My tech portfolio can be found at the link below. This web page includes some my favorite projects using a variety of languages, information about my skills, and thoughtful weekly descriptions of my coding journey in CodeCrew boot camp.
